Hi again, Elizabeth—After our earlier email exchange, I realized that I didn't include you when sending EPA's responses to the Committee's April 28 EPA budget hearing QFRs last night. We've been figuring out staffing on our end and I wasn't initially included so I didn't have the incoming email from the Committee, but I did have a recent ping from the Majority side to respond to so I replied to that. I'm very sorry for the screw up, and this long-winded explanation. I just want to make sure you get these and can share with everyone needs them at the Committee, if they haven't already made it your way. My sincere apologies.

Thanks,
Kristien
